8 HOUR SUSTAINED AMINO ACID DELIVERY*

CASEIN *EDGE* is a game changing ultra-premium cold-processed Micellar Casein Isolate that delivers 24g of high-quality anti-catabolic protein for a sustained amino acid release to feed your muscles for up to 8 hours*. After fasting (or sleeping) for 6-8 hours, the body starts going into a catabolic state. Micellar casein slowly and continuously feeds your muscles a steady supply of muscle-building essential amino acids for several hours, which helps maintain a positive nitrogen balance and preventing muscle protein breakdown. This makes **CASEIN *EDGE*** ideal for nighttime or prolonged periods throughout the day without protein.

DOUBLE THE POWER OF YOUR PROTEIN!

SUPERIOR WEIGHT LOSS. SUPERIOR BIOAVAILABILITY.

CASEIN *EDGE* also includes Velositol®, a patented, revolutionary ingredient which increases insulin sensitivity for enhanced amino acid uptake into muscle. When used with protein, Velositol increases and **DOUBLES** muscle protein synthesis (MPS). MPS is key to enhanced muscle growth, lean body mass and quicker muscle recovery. By increasing insulin sensitivity, carbohydrates are shuttled into muscle cells rather than being stored as fat. This will help promote increased fat loss and a leaner physique.

Suggested Use: As a dietary supplement, take **CASEIN *EDGE*** before bed and/or between meals when slow digesting protein is desired. Add one slightly heaping scoop (34.5 g) with 12 to 16 ounces of cold water to a shaker cup or blender and mix for 25 to 30 seconds. Vary the amount of liquid to your desired taste and consistency. Drink 1 to 3 servings daily as needed to satisfy your protein requirements. Using nonfat milk instead of water will give you a thicker, creamier shake.
