100% VEGAN BCAAs

Unfortunately, most BCAA products are cheap, synthetic versions made from duck feathers and human hair. Our BCAAs are 100% vegetable based and manufactured through natural fermentation*. That's how we can guarantee we have the finest, most pure BCAA on the market*.

THE NEW BENCHMARK IN BCAA BIOAVAILABILITY

Most BCAAs are NOT water soluble, float on aqueous surfaces and degrade after being subjected to stomach acid. The patent-pending, pH-buffering technology behind AminoZorb® in BCAA EDGE makes it fully stable in solution and allows BCAA EDGE to dissolve rapidly and completely in water.*

SUPERIOR FAT LOSS*

BCAA EDGE also includes Velositol®, a patented, revolutionary ingredient which increases insulin sensitivity for enhanced amino acid uptake into muscle. When used with BCAAs, Velositol® increases muscle protein synthesis (MPS) by 25%. MPS is key to enhanced muscle growth, lean body mass and quicker muscle recovery. By increasing insulin sensitivity, carbohydrates are shuttled into muscle cells rather than being stored as fat. This will help promote increased fat loss and a leaner physique.

**INCREASES MPS
(MUSCLE PROTEIN SYNTHESIS)
BY 25%
WHEN COMBINED
WITH BCAAs**

SUPERIOR RECOVERY*

BCAA EDGE is also fortified with electrolytes for hydration and optimal performance*. For athletes who demand the very best, BCAA EDGE is the obvious choice.
